Амур Форе́ст

The lumber mill is included in the List of the Priority Investment Projects.

JV “Arkaim”, Ltd

**A timber processing facility located in the
Oktyabrkiy settlement, Vanino district.**

*The facility is included in the List of
the Priority Investment Projects.*

*Payback period
– 7,2 years*

*The facility is included in the List of the
Priority Investment Projects.*

Rmbunan Hijau MDF, Ltd

**MDF/THDF manufacturing plant,
Khor settlement, Lazo district**

The first stage - 150 thousand cubic meters of MDF per year.

Commissioning of the first stage facilities in 2009

The first stage will reach projected capacity in 2010

The second stage - 150 thousand cubic meters per year.

Commissioning of the second stage facilities in 2011

The second stage will reach projected capacity in 2012

*The project is included in the List of the
Priority Investment Projects.*

2009/04/02 12:19

DalEvroLes Co. Ltd

A timber processing facility, located in Kharpichan, Solnechnyi district. The facility produces lumber and veneer.

The facility is included in the List of the Priority Investment Projects.

The first stage: 200 thousand cubic meters of lumber per year.

Commissioning date is 2011.

The second stage: 190 thousand cubic meters of glued veneer per year.

Commissioning date is 2012.

*The project is included in the List of the
Priority Investment Projects.*

JSC “Dallesprom”

**“Far Eastern Center for Advanced
Timber Processing “**

First stage:

2009-2012– establishment of production facilities in Amursk:

- 300 thousand cubic meters of rotary-cut veneer,*
- 230 thousand cubic meters of dry-kiln lumber,*
- 300 thousand cubic meters of MDF board per annum;*

2009-2011 – construction of chip production facility in Vanino.

The production capacity is 750 thousand cubic meters per annum.

Facilities commissioning:

rotary-cut veneer u chip production facilities – 2011, lumber and MDF board – 2012.

Second stage:

2008-2011 – feasibility study for pulp plant construction;

2012-2015 – pulp plant construction, with 700 thousand tones of pulp production per annum.

Ros-Dv, Ltd ООО «Рос-ДВ»

Production of valued added wood products and components for wood housing construction

The first stage - 125 thousand cubic meters of lumber, including 30 thousand cubic meters of dry-kiln lumber .

A new dry-kiln facility was commissioned in 2008. The dry-kiln production facility capacity is 70 thousand cubic meters of lumber per annum.

The second stage – production of glued lumber products - 5 thousand cubic meters per annum.

Plant commissioning and plant operation at projected production capacity in 2010.

Амур Фореест

The first stage: 150 thousand cubic meters of dry-kiln lumber per year.

The facility will be commissioned in October 2008.

The second stage: 40 thousand cubic meters of glued lumber. The plant commissioning and operation at projected capacity in 2010.

2008/10/17 N 18

Dry-kiln lumber production - 350 thousand cubic meters per year, plant commissioning in 2009, with subsequent increase up to 600 thousand cubic meters by 2011;

Glued materials production - 100 thousand cubic meters per year, plant commissioning in 2010.

Производство топливных гранул – 90 тыс.тонн в год., ввод мощностей - 2010 год.

Production of low-density wood chipboard - 140 thousand cubic per annum, plant commissioning in 2009, the plant will operate at full capacity in 2011.
